## RESPONSE TO RESTRICTION REQUIREMENT

This is in response to the Office Action mailed March 9, 2009 requiring restriction and election with respect to the pending claims. With this response, claims 1-14 remain pending.

### 1. Restriction Requirement

The Office Action requires restriction and characterizes claims 1-14 as directed to the following inventions which are allegedly not so linked as to form a single general inventive concept under PCT Rule 13.1:

Invention	Claims
Group I (claims 1-13)	Drawn to a coating method.
Group II (claim 14)	Drawn to an array of electrodes.

Pursuant to the requirements of 37 C.F.R. § 1.142, Applicants elect, without traverse, the claims of Invention I for examination. Invention I corresponds to pending claims 1-13.

Applicants hereby reserve the right to pursue rights in the fullest extent of subject matter of the present invention including, but not limited to, unelected inventions and inventions of other asserted species, in the present application or any subsequently filed continuation, divisional and/or continuation-in-part applications.

## **2. Conclusion**

In view of the foregoing, it is submitted all pending claims are believed allowable and in condition for allowance. Passage to issuance is, therefore, respectfully requested. The undersigned believes that this reply is responsive to each and every item raised in the Office Action; if the Examiner considers otherwise, the Examiner is urged to contact the undersigned as soon as conveniently possible to resolve any issue.

It is believed that no payment is due for this submission. If this is incorrect, please charge any deficiency or amount for any extension of time required or credit any overpayment to Deposit Account No. 07-1969.

Respectfully submitted,
